## **Pillar 3 Disclosures**

Direct equity investments and equity investments in leveraged investment funds are risk weighted in accordance with the SRWA in accordance with the table below.

Risk Weight Investment Category

INISK Weight	investment oategory
20%	An equity exposure to a Public Sector Entity (PSE), Federal Home Loan Bank (FHLB) or Farmer Mac
100%	Community development equity exposures Non-significant equity exposures to the extent that the aggregate adjusted carrying value of the exposures does not exceed 10% of our Tier 1 capital plus Tier 2 capital
250%	Significant common stock investments in financial institutions which are not deducted from capital
300%	A publicly traded equity exposure (other than an equity exposure that receives a 600% risk weight)
400%	A private equity exposure (other than an equity exposure that receives a 600% risk weight)
600%	An equity exposure to an investment firm that (i) would meet the definition of a traditional securitization but for the fact that the investment firm can exercise control over the size and composition of their assets, liabilities, and off-balance-sheet exposures, and (ii) has greater than immaterial leverage

Risk weights are applied to the "adjusted carrying value" of the equity exposure. For on-balance-sheet positions, the adjusted carrying value is the same as the balance sheet carrying value. For our unfunded equity investment commitments, the adjusted carrying value is a percentage of the notional amount, based on the estimated funding of the commitment during economic downturn conditions.

Although the SRWA assigns specific risk weights to different types of equity exposures as set out above, the regulations allow for "non-significant equity exposures" to be risk weighted at 100% to the extent they do not exceed in the aggregate 10% of our Tier 1 plus Tier 2 capital, with the remaining portion then risk weighted as appropriate in accordance with the SRWA. Generally, those equity exposures that would attract the lowest risk weights under SRWA are required to be treated as non-significant equity exposures, before inclusion of any equity exposures that would otherwise attract higher risk weights under SRWA.

The table below presents the adjusted carrying values and RWAs for our equity exposures in the banking book.

Table 7: Equity Exposures in the Banking Book

\$ in millions		As of September 2019					
	Adjusted Carrying Value <sup>1, 3</sup>	Risk Weight		RWAs			
Simple Risk Weight Approach (SRWA)							
Equity exposures to a PSE, FHLB or Farmer Mac	\$ 51	20%	\$	10			
Community development equity exposures	2,028	100%		2,028			
Non-significant equity exposures	9,997	100%		9,997			
Significant investments in the common stock of nonconsolidated financial institutions	5,046	250%		12,615			
Publicly traded equity exposures <sup>2</sup>	-	300%		-			
Private equity exposures <sup>2</sup> Equity exposures in leveraged	6,373	400%		25,492			
investment funds	357	600%		2,142			
Total SRWA	\$ 23,852		\$	52,284			
Simple Modified Look-Through Approach (SMLTA)							
Equity Exposures to Investment Funds	1,335			1,588			
Total SMLTA	\$ 1,335		\$	1,588			
Total	\$ 25,187		\$	53,872			

- The adjusted carrying value of the equity exposures includes \$1.32 billion representing a percentage of our unfunded commitment exposure.
- Our publicly traded and a portion of our private equity exposures are risk weighted as non-significant equity exposures.
- 3. Adjusted carrying value consists of \$1.95 billion of publicly traded and \$23.23 billion of private equity exposures.

## **Pillar 3 Disclosures**

The table below presents the exposure amount and related RWAs of our banking book securitizations, including onbalance-sheet (retained or purchased) and off-balance-sheet exposures, broken out between traditional and synthetic securitizations, by underlying exposure type.

Exposure amounts below represent the associated EAD as calculated and defined by the regulatory rules, and are not comparable to securitization measures reported in "Note 11. Securitization Activities" in Part I, Item 1 "Financial Statements" in our Quarterly Report on Form 10-Q.

Table 8: Securitization Exposures and Related RWAs by Exposure Type

\$ in millions
